SPIRIT TASTING MENU

Since its beginning, 1861 Distillery has produced spirits as distinct as its story—one founded in legacy, steeped in history and flavored by a slower pace of life. We believe there is beauty in inefficiency—finding perfection in the imperfect. Our spirits are distilled in the slowest process available, resonating with our slower pace of life.

The 1861 family of spirits are crafted to create unforgettable flavors by using only the best ingredients, including water from one of the world's purest limestone aquifers. Our spirits are made to be appreciated slowly while discerning their flavors and enjoying the company of friends and family.

We hope you will find our spirits to be as iconic as the small Southern town of Thomasville, blending the same appreciation for nature, friendship and a slower pace of life that continues to define this special corner of the world.
