TASTINGS

Since it's beginning, 1861 Distillery has produced spirits as distinct as its story - one founded in legacy, steeped in history and flavored by a slower pace of life. We believe there is beauty in inefficiency, finding perfection in the imperfect. Our spirits are distilled using the slowest process available, resonating with our slower pace of life.

The 1861 family of spirits are crafted to create unforgettable flavors by using only the best ingredients, including water from one of the world's purest limestone aquifers. Our spirits are made to be appreciated slowly while discerning their flavors and enjoying the company of friends and family.
